Portfolio: <https://nataliepitts.com/> | LinkedIn: <https://www.linkedin.com/in/natalie-pitts-a679271a0/>

SUMMARY

- ◆ I'm looking for a position as a **Data Science or Data Engineer** where I can use the analytical abilities and knowledge I've gained while earning a **B.A. in Data Science and Internet Technology, average of 94**. Looking for a dynamic, forward-thinking organization where my abilities may be used to their fullest potential.
 - ◆ Motivated and open to learn more, with outstanding interpersonal and communication skills, team player, hard worker and a self-learner.
-

DEVELOPMENT EXPERIENCE

- ◆ **Spot Your Recipes:** The app presents all of the most popular recipes from the All-Recipe website as part of my final project at the university. A custom scraper with **Collaborative Filtering** algorithm were used to import the data with **unique queries** and **MongoDB**, as well as **ALS** algorithm to enables matrix computation and division. Created with: **Vue**, Quasar, **Node.js**, **Python**, Spark and **MongoDB**.
 - ◆ **Portfolio:** I built my own Portfolio from the scratch, **with special organic SEO strategy** that has present the site as the first result at Google just by writing my full name. Created with **React**. Website link: <https://nataliepitts.com/>
 - ◆ **Global Glamping Israel:** Corporate Website, Created with **WordPress**. Website link: <https://globalglampingsolutions.com/>
-
